BOARD OF PUBLIC WORKS.

Business Transacted by the Board This Morning.

The Board met in regular session, all members present, and President Bell in the chair.

On motion, the Engineer was directed to report to the Board the number of cubic yards of filling required to fill Mc-Lean avenue within two feet of the re-quired grade, through the lands of Mr. W. P. Huriburt, G. Gano and Miss E. A. Rolofson.

A communication received from I. & E. Greenwald, stating that they had con-cluded to agree to the proposition made by the Board for the improvement of East Pearl street, in front of their property, under certain provisions, referred to the Engineer.

ANOTHER HEAVY BURGLARY. Betective Kushman's Speedy Capture.

The burglars seem to be hard at work these cool nights. The latest depredation of any prominence occurred about lo'clock this morning at the shoe store of H. Burchard, No. 33 West Sixth

That there was more than one in the scheme is evident, from the amount of goods taken, which are valued at \$400 or more. Mr. Burchard reported his loss to the Chief of Police, and Detective Euglinan was detailed to work up the

case.

How well he "worked" it is shown by the fact that within a new hours atterreceiving the points he had one of the burg ars safely caged, finding part of

the stoien property in a sack which he was lugging around on his shoulder.
The goods have been identified by Mr. Burchard. The arrest was made on Eighth street, near Race.
The prisoner turned out to be Charley dispatch says that Senor Leon, Secre-tary of Villagrana, arrived this morning criminals, and who has but just been liberated from the Onio Pentientiary,

on Front street, was visited, where several pair of boots were found. Welsh and Cronin, on Sixth street near Elm, had some more to show up, and finally another haul was made at Joe Brown's place, on Front near Race, where a pair of the storen boots was found on the feet of the proprietor.
Thomas claims that the information

given to the detectives has disclosed the whereabouts of every article stolen from where abouts of every states storen from Burctiard, with the exception of three pair of boots. If this is true, the loss of \$400 worth of goods, as reported by Mr. Burchard, is slightly too high. Entraces to the store wils effected by

forcing a shutter at the back of the store, and breaking a window, through which Thomas, who is a small man, made his entrance into the store-room. Quick work by the Cincinnati "fly

cops" is nothing new lately, but this bit of work by Ku-hman will compare fatorably with any of their "ligating business."

Mr. N. McNeale read the majority report in favor of appointing a committed to secure legislation allowing the Truetees to run the road.

Mr. Harry R. Smith offered a substatute providing that the road be turned over to the tax-payers, their tax to pay for stock, but he was not seconded. Has substitute was the same as the plan published a few weeks ago.

Judge Pruden said the Transcent

Judge Pruden said the Trustees had built a better road than was contem-plated, and had spent more money than necessary. He thought Mr. Smith's plat-

plated, and had spent more money that necessary. He thought Mr. Smith's plat the best.

Mr. McNeale said his resolution distributed in the pearly the details of legislation, but left them open for discussion.

Mr. Charles R-emelin opposed the appointment of the committee, because his was opposed to lobbying. He said according to law, the road must be left in the hands of the city, and thought the Trustees had power, under the present law, to make time contracts with any company or companies for running it in connection with the Trustees and under the supervision of the city. The oas question was as to the terms of the contract. This plan would prevent monor city, and the profits would be divided according to contract. The road should be put in motion as soon as possible He thought it unjust for the Board of Transportation, which was only a part of the people, to try to take charge of this matter. He opposed giving the road to any one railroad, but wanted it run by a company under the supervision of the city.

Finally the following resolution, of fered by Mr. McNeale, was adopted:

"Resolved, That the Directors of the Board of Transportation be requested to appoint a committee to obtain legist lation enabling the Trustees of the Southern Railroad to operate the road, and to employ counsel to draft the necessary laws."

The meeting then adjourned subject to the call of the President of the Board of
